

Sage's Directory of Senior Services is the most comprehensive resource of seniors services, housing and information in the greater Edmonton region. Curated and published by Sage since 1984, the Directory has established excellent brand recognition and a loyal following .

Over 200 pages of listings in categories ranging from seniors housing to health makes the Directory the go-to resource for thousands of seniors, professionals, and caregivers.

The Directory is an essential easy-to-access A-Z listing of senior services, from a trusted source.

“I have had [a Directory] every year for years and use it every week. I have found my last two residences from the Directory, all of the important numbers I want and need are in there – it is my phonebook, my treasured resource and I feel lost without it.”

WHY IT'S IMPORTANT

Navigating seniors services, often for the first time and under stress, is not easy. Many don't even know where to start. Sage's Directory of Senior Services effectively fills an essential role in navigation. Individuals, families, and an entire system of senior-serving health and housing providers count on the Directory.

"For many seniors, the only starting point for exploring housing options is with Sage's Directory."

HOW IT WORKS

Sage coordinates the listings* directly with senior-serving organizations to compile current and accurate information. Senior-serving not-for-profits submit listing information for free; private/for-profit organizations receive a listing with the purchase of an ad.

Sage works with the fantastic team at Great West Media LP to provide a high level of service to Directory Advertisers. With their extensive experience in ad sales for publications such as the Edmonton Prime Times, they are experts in their field.

Once printed, the Directory is distributed through an established network of community locations, service providers and public racks.

*Listing content is limited to specific format and length. Sage reserves the right to edit the content for consistency and to fit the space.
